

- ①
- ①a If there is a failure in leak test in battery:
- We need to raise non-conformance and take corrective action.
 - For non-conformity, take actions and correct it and review the Effectiveness of the corrective action taken.
 - To Stop the non-conformance:

- i. Review & analyze the non-conformance document.
- ii. Verify whether the same non-conformity exists before.

→ In AS9100D, this clause comes under "clause 10".
"Improvement".

①b → First, raise a non-conformance (for the failure of the leak test).

→ Deal with consequence of the non-conformance.

→ Take action to eliminate the cause / failure.

→ update any risks / opportunities raised during planning and make changes to the QMS.

①c → To raise a non-conformance, "Quality Control" (QC) is responsible.

→ Production, Design & Development (if there necessary), and Quality departments are involved in this Non-conformance.

②a → Purchase department & Stores is responsible for the counterfeit.

→ Stores need to check the material (or) Product while receiving it from the Supplier. Quality need to inspect the product in prior.

→ If the product / Material doesn't match the Specification given by the organisation, Reject the those material / Product.

→ When counterfeit is found during the process, the

production team need to submit it to q.c.
→ quality need to verify the product & reject the material.

⑥ → Purchase:

- i. Should communicate with the Supplier regarding material/products.
- ii. After receiving, of indent, need to verify whether the Supplier can match the Specification given by the organisation.

→ Quality Control:

- i. The qc department need to inspect the inward material as per the Specifications / drawings.

⑦ ~~ii.~~ If the material is Accepted, Submit the materials to stores with acceptance sticker.

- iii. If rejected, Submit with Red Sticker

→ Stores:

- i. Need the verify the inward material while receiving.

→ Production:

- i. Need the Submit counterfeit product to the q.c.

⑧ Quarantine and reporting of defected counterfeit part.

→ Counterfeit part comes under clause "8.1.4 - prevention of counterfeit parts".

→ To prevent counterfeit parts:

- i. Training the appropriate persons in the awareness
- ⑨ ~~ii.~~ Verification and test methodologies to detect counterfeit parts.

(2)

(3) When a new Environmental regulation impacts the use of Specific chemicals.

(a) Analysis and reporting of occurred Events affecting Safety.

(1X) Communicating these Events with the training Persons.

(b) Customer communication:

→ Should provide information related to chemical.

(2X) Establishing Specific requirements for contingency actions.

The organisation shall negotiate a mutually acceptable requirement with the customer.

(c) The organisation shall ensure that relevant documented information is amended, and the relevant persons are made aware (production, DSD and QC) of the changed requirements.

(1X)

(4) (a) If the customer requirements cannot be met or can only partially be met, the organisation shall negotiate a mutually acceptable requirement with the customer.

→ the organisation shall retain documented information, as applicable.

1. On the results of the review.

2. On any new requirements for products & Services.

③

④⑥ The organisation can also consider as design and development inputs other information such as benchmarking, External provider feedback, internally generated data and in-service data.

② ⑦ The organisation shall divide the DSD Effort into distinct activities and, for each activity, define the tasks, necessary resources, responsibilities, design content & inputs and outputs.

④ Clause "8.3.5 Design and development outputs".

→ the organisation shall retain documented information on "design and development outputs". that can include.

- ②
1. Meet the input requirement
 2. Include Reference monitoring and measuring requirement.
 3. Specify the characteristics of products and services.

⑦⑧ Communicating the different types of Supplier's, so whoever the Specification's are matching with our Organisation's Specification.

→ then we can give an order to that Supplier.

⑧ CHOOSE THE CORRECT ANSWER

1. A 2. E 3. A 4. A
